Subject: Charter Review

Dear Council President Lightner;

Free trash pick-up has got to be costing the city of San Diego millions of dollars, perhaps tens of millions of dollars every year. They should remove that from the charter and have residents pay for trash pick-up, like every other city does.

When we lived in Phoenix, AZ the city of Phoenix would bill for trash pick-up on the monthly water bill.

Also, why does the city of San Diego water bill come out every two months? Every other bill I get is paid monthly and it's a struggle to attempt to pay a huge water bill when it's two months' worth of charges vs just one single month.

Not sure if that's in the charter, but if it is, that should be changed as well.

Thank you,

Louis and Tim Cook
